30-DAY DESIGN FOUNDATION

Senior design leadership, before you're ready to hire it.

For recently funded startups whose product, brand, and design system haven't caught up with the company's growth.

Led directly by design leadership from Adobe and Walmart.

01 Your company has moved forward. Your design foundation hasn't.

You raised. Engineering is shipping. The bar just moved. Your product, brand, and design system need to catch up with the company you're becoming.

- Product UX has become inconsistent as features accumulate
- Brand, product, and sales surfaces no longer feel like one company
- Engineering is making one-off design decisions because no shared system exists

02 One focused 30-day engagement.

WEEK 1

DEFINE

- Positioning
- Audience
- Experience principles
- Shared design direction

WEEK 2

BRAND

- Identity system
- Typography
- Color
- Voice
- Key sales and marketing templates

WEEK 3

PRODUCT

- Critical user journey
- High-fidelity UI
- Interactive prototype
- States and edge cases

WEEK 4

SYSTEMIZE + ENABLE

- Components
- Design tokens
- Documentation
- Engineering handoff
- AI-ready design system

03 A design system your team and AI can actually use.

Raft does not stop at Figma files and brand guidelines. We structure brand rules, components, tokens, templates, and DESIGN.md so marketing, sales, design, product, and engineering teams can continue producing new work faster while staying inside the same system.

AI-native during the sprint. AI-ready after it.

CLAUDE DESIGN · FIGMA MAKE · LOVABLE · CANVA AI

The system is the asset. The tools can change.

04 Senior judgment. Hands-on execution.

Led directly by Lance Shields — 20+ years across product, brand, and design systems, with design leadership at Adobe and Walmart, plus recent AI startup brand and product work with LegalOn. Strategy and execution stay together. No junior handoff.

05 Fixed scope. Fixed timeline.

$28K

Foundation — brand system + core product experience

$34K

Full System — broader product scope + deeper systemization

Book a design maturity assessment

In a 20-minute conversation, we'll look at the biggest gaps across brand, product, and system readiness and whether they're likely to become a constraint.
